

Flavor Burst® CRUNCHICREME®

THE PRODUCT

LET YOUR FREEZER DO THE MIXING!

- No more time wasted opening containers, measuring, scooping, hand-mixing each flavored treat and transferring it to a serving container. The TS CC80-SS does the work for you, blending in delicious pieces at the freezer spout, as the soft-serve is dispensed.
- Don't confine your candied soft-serve to a cup. Now you can have blended treats in a cup, cone, waffle cone or bowl!
- Offer up to 8 different flavors, all displayed colorfully in the clear containers for your customers to see.
- Select multiple flavors to create a layered combo cone featuring your favorite pieces.
- The TS CC80-SS system is compatible with a variety of soft-serve mixes and freezer models.

ONE-STEP PROCESS

- Simply select as few or as many flavors as you like from the touchscreen menu, and you are ready to draw the serving!
- Delicious flavors are blended throughout the base product as it dispenses, automatically changing from one flavor to the next with no additional steps.

CANDIES, COOKIES, AND MORE!

- The system is compatible with a variety of flavor pieces, such as candies, cookies, nuts*, cereals, granola, pretzels, sprinkles, chocolate chips, coated chocolates, etc. **
 - * Dry products work best. Products that are naturally sticky, moist, powdery or prone to melting may clog the CrunchiCreme system.
 - ** Because all pieces pass through a common orifice, all finished products should be considered as containing nuts.
- The CrunchiCreme system can accommodate pieces as small as 0.0312 inches in diameter to as large as 0.3500 inches in diameter.*
 - * Pieces that are too large can clog the dispensing parts. Pieces that are too small can create dust, which, combined with the natural condensation of the mixing hopper, may cause build-up and clogging.
- Pieces are stored in plastic containers for optimum freshness and shelf life, while the Cooling Hood keeps the pieces cool and dry to prevent the pieces from sticking together.

CrunchiCreme®

- On average, one container of pieces holds as many as 30 servings.* With 8 containers of pieces, this system can produce approximately 240 servings before needing to refill the containers!
 - * Based on a 6-oz soft-serve serving. Flow rate and physical characteristics of the pieces also affect the serving count.
- Order pre-chopped pieces or create your own pieces with the Candy Chopper (sold separately).

Flavor Burst® CRUNCHICREME®

THE EQUIPMENT

BLENDING ASSEMBLY

- Blends the soft-serve with the pieces inside the hopper as it dispenses
- Easy to install and remove for cleaning
- Fully detachable drive motor and funnel tube
- Adapter kits available for a variety of freezer models

CAROUSEL & BASE

- 8 top-loading containers; refill the containers without having to remove them
- 8 motors powered by the Touchscreen to dispense the flavors at a rate that is adjustable by the operator
- Sturdy mounting brackets for a variety of freezer models

TOUCHSCREEN

- Standard with each Flavor Burst TS system
- Easy to navigate touch-sensitive screen
- Programmable for different languages, custom flavor names and serving sizes
- Easily adjust dispense rates for each flavor, change menu flavors names, access serving count, and more

COOLING HOOD

- Included with every TS CC80-SS system
- Keeps the contents of the hood at a prime temperature of approximately 57° F
- Easily removeable for cleaning and accessing the containers
- Includes a condensation bottle to collect condensation, keeping ingredients dry
- External power supply attaches to the side vents of the freezer

Optional Item! CANDY CHOPPER

- Part number CG 200
- Sold separately from the TS CC80-SS system
- Stainless steel blades chop candies, nuts, cookies, and other food products into ideally-sized particles for the CrunchiCreme system
- Removeable parts for easy cleaning
- Corded, with an on-off switch
- Sturdy stainless steel base
- Size: 8 x 18 x 14.5 in. (205 x 458 x 369 mm)
- Includes 2 funnels, 100 clear sealable bags, stomper tool, and acrylic tube to aid in filling bags
- *ONLY AVAILABLE IN 110v*
